

Machine Series: URM

Strapping Machine (semi-automatic)

Get convinced by our user-friendly machines!

Machine information:

- integrated strap storage, automatic strap transport
- user-friendly workflow
- high throughput due to microprocessor control
- adjustable strap tension (manual / electronic)
- fast strap change system (manual / electronic)
- height adjustable feet on castors
- low-noise locking unit

Further information:

Properties (depending on model)

- Electrical voltage regulation
- Adjustable cooling time
- Energy-saving motor

Options

- Power failure button
- Adjustable legs

PP strapping band directly available, also printed with company logo
